

SERVICES >>

- 1 PROGRAM MANAGEMENT ADVISORY:** We provide organizations with tools and methodologies to manage large programs including testing and quality assurance, resource management, including human resources, and organizational change management. We have developed a comprehensive "enterprise integration toolkit" for all phases of program execution that enables the client to plan and execute more effectively.
- 2 INDEPENDENT VERIFICATION & VALIDATION (IV&V):** Utilizing our proprietary collaborative methodology, ERP*i* conducts objective, independent, experienced-based analytical assessments of client's processes, program documentation, planning and status documents, risk management information, regulatory compliance, test plans, and deliverables.
- 3 CFO ADVISORY:** ERP*i* supports financial officers by providing business process reengineering, program management, financial system assessments and compliance with the CFO Act and OMB A-123.
- 4 CIO ADVISORY:** ERP*i* provides support to Information Technology (IT) officers in leveraging technology to solve their business problems. This includes business process alignment, portfolio management, policy development, requirements definition and information assurance.
- 5 COO/CLO ADVISORY:** We provide support to Operating and Logistics officers responsible for federal supply chain management. We aide in leveraging the technologies that improve client business operations. ERP*i* conducts business process reviews in advance of defining technology solutions to ensure the outcome meets the organization's business goals and performance objectives.
- 6 EXECUTIVE LEADERSHIP COACHING:** Our coaching and facilitation services help organizational leaders learn how to clarify their priorities, determine gaps, and outline a path forward. Leaders can then become catalysts for change within their organizations.
